About Us

A platform to an exciting and innovative career

Rostra UK Ltd is an independent sector healthcare provider presenting an exciting and innovative approach to healthcare provision. We offer excellence in dedicated vascular services, primarily in varicose vein management using the latest and most advanced technological advances for approved clinical procedures.

Your hard work, skills and dedication will make you part of an innovative clinical team assisting in the current strategic direction of modern healthcare provision, whilst offering you the opportunity to shape your own career.

At the heart of our organisation is the overall care and health improvement of our patients and we aim to compliment this with an exciting, caring and people orientated approach to teamwork. A position within **Rostra UK Ltd** will be extremely rewarding, offering a flexible approach to your working time and the opportunity to make a real difference.

Vacancy

Senior Vascular Technologist and Vascular Technologist

Salary dependent on experience + attractive benefits inc. bonus, car allowance, mobile phone allowance, pension, and private healthcare.

Rostra UK Ltd has opportunities for full time Senior Vascular Technologists and Vascular Technologists for the delivery of vascular services through innovative models.

Ideally, for the senior positions you will have a minimum of 2 years experience, lower limb peripheral vascular ultrasound experience is desirable. Additional professional accreditation is also desirable.

If this opportunity excites you, please send your current CV with covering letter to:
Melanie Moore, Operations Director, Rostra UK Ltd, Aizlewoods Mill, Nursery Street, Sheffield, S3 8GG.
